**Canadian Citizen**

## SUMMARY

---

*Highly motivated Computer Science student at the University of Saskatchewan. Currently in the third academic year of a four-year program, with strong proficiency in both front-end and back-end development. Committed to continuous learning with a strong desire to explore emerging technologies. Experienced in collaborative team environments and using version control systems within such environments. Planning to enter the Honours Software Engineering program here at the University of Saskatchewan to further develop software engineering expertise.*

## EDUCATION

---

**University of Saskatchewan, Saskatoon**

**May 2027**

*Bachelor of Science in Computer Science*

- GPA: 82.45%
- Relevant Coursework: Intermediate Data Structures & Algorithms, Developing Object-Oriented Systems, Computational Logic and Program Reasoning, Programming Principles and Practices

## PROFESSIONAL EXPERIENCE

---

**ANOVUS, Calgary**

**January 2025**

*Software Developer Intern*

- Contributed to the development of a mobile application submitted to the University of Calgary, intended as a platform for student identification (current under review by the University)
- Collaborated with a team to design and implement front-end components and pages using React Native and JavaScript
- Assisted in building features for generating unique QR codes for individual student identification, as well as displaying important events around the university, supported by an intricate database system
- Gained experience working in a professional development team and applying version control systems for organized and documented collaboration

## SKILLS

---

**Programming languages:** Java, Python, C, Bash, JavaScript, HTML & CSS

**Computer software/ frameworks:** Git, Linux, React, React Native, NodeJS, MATLAB

## AWARDS

---

**Mathematics Award:** University of Saskatchewan - 2023
